September 20, 2023

To the Honorable Mayor, Members of the City Council and Citizens of the City of Worthington:

Minnesota statutes require all cities to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants or the state auditor. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the City of Worthington for the fiscal year ended December 31, 2022.

This report consists of management's representations concerning the finances of the City of Worthington. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Worthington has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliability information for the preparation of the City of Worthington's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Worthington's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Worthington's financial statements have been audited by Abdo, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Worthington for the fiscal year ended December 31, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Worthington's financial statements for the fiscal year ended December 31, 2022, are fairly presented in conformity with GAAP accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP accounting principles generally accepted in the United States of America requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Worthington's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Worthington, incorporated in 1873, is located in the southwestern part of the State of Minnesota, and serves as a regional trade and service center for the surrounding agricultural area. The City of Worthington currently occupies a land area of 9.28 square miles and serves a population of 14,055. The City of Worthington is empowered to levy a property tax on both real estate and personal properties located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the governing Council.

The City of Worthington has operated under the council-administrator form of government since 1973. Policy making and legislative authority are vested in a City Council consisting of the Mayor and five other members. The governing Council is responsible, among other things, for passing ordinances, adopting the budgets, appointing committees, and hiring the City Administrator. The City Administrator is responsible for carrying out the policies and ordinances of the Council, for overseeing the day-to-day operations of the City government, and for appointing the heads of various departments. The Council is elected on a non-partisan basis. Council members serve four-year staggered terms, with three Council members elected every four years and the Mayor and two Council members elected in staggered four-year terms. Four of the Council members are elected by district. The Mayor and the one remaining Council member are elected at-large.

The City of Worthington provides a full range of services, including police and fire protection; the construction and maintenance of highways, streets, and other infrastructure; water, sewer and electric services, and recreational activities and cultural events.

This annual budget serves as the foundation for the City of Worthington's financial planning and control. All departments of the City of Worthington submit requests for appropriation to the City Administrator and Finance Director in July of each year. The City Administrator and Finance Director uses these requests as the starting point for developing a proposed budget. The City Administrator and Finance Director then provides this proposed budget to the department heads in August to suggest priorities. These budgets then are brought to council for review during work sessions scheduled in September. The Council is required to hold public hearings on the proposed budget and to adopt a final budget no later than December 31, the close of the City of Worthington's fiscal year. The appropriated budget is prepared by fund, function (e.g. general government, public safety, etc.), and department (e.g. administration, police, etc.). Budgetary control is maintained at the departmental level of expenditures within each activity (function). The level of control (level at which expenditures may not exceed budget) is maintained at each individual fund, except for the general fund. The general fund is reviewed at the departmental level (i.e. Mayor and council, administration, police department, fire, public works, and streets); however, the overall budget of the general fund is the responsibility of the City Administrator. Informal approval is given by the City Administrator and Finance Director. The City Administrator must obtain approval from the City Council for all budget transfers and departmental overages.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Worthington operates.

Local economy. The City serves as the county seat and regional economic center for Nobles County in Southwestern Minnesota. In 2022, the City issued 530 building permits (70 permits more than issued in 2021) for a cumulative total of \$8.5 million of construction work, which is 61% less than the construction value reported in 2021. The current economic environment has resulted in the investment of over \$155 million in building activities within the corporate limits of Worthington between January 2018 and December 2022.

Worthington, rich in culture, is southwest Minnesota's commercial, industrial and agricultural regional center. Our economy has remained strong, continuing to grow and thrive with the population surpassing 14,000 in 2023. Local option sales tax revenue, used to fund community amenities and enhancements, exceeded projections in 2022 indicating a strong retail economy. Sales tax funds are supporting the City's economic development initiatives to grow the workforce by adding housing and recreational opportunities. Worthington has invested more than \$30 million over the past several years in projects intended to attract and retain our needed workforce.

Long-term financial planning. Unassigned fund balance in the general fund at year end was 40 percent of the total general fund budgeted expenditures. This amount is within the policy guidelines (35%-50%) set by the Council for budgetary and planning purposes. This year-end amount is just over the target percentages set by the policy guidelines (2020 and 2021 percentages were 58% and 52% respectively).

The City maintains a five-year Capital Improvement Program which serves as its planning document to ensure that its facilities and infrastructure are well maintained and operating in peak condition. Projects are identified by name, cost and funding sources (property taxes, reserves, bonding, assessments, utility revenue, state/federal funding or other). The City also funds its equipment purchases through its budgetary process annually. This ensures that when a piece of equipment is scheduled to be replaced, a majority (if not all) of the funding is available for the purchase of the equipment. This allows the City to stabilize the impact on property tax revenues by building the required amounts over a period of time.

The City raised its property tax levy 12.44% for taxes payable in 2022. Following is a graph comparing the City's tax levy and LGA received in the appropriate years.

Labor agreements with the City's three bargaining units (Law Enforcement Labor Services (LELS) #4 and #274 and Union of Operating Engineers Local #49, AFL-CIO) terminated on December 31, 2021. The City and all three bargaining units agreed to three-year contracts for 2022, 2023 and 2024. The Cost of Living Adjustment (COLA) increase for all three bargaining units and non-aligned employees for the current contract period was 3.50% each of the three years.

Major Initiatives. The City has accomplished many things in 2022 and initiated projects that will continue through 2023 and beyond. The following are some of the major initiatives addressed during the year.

Housing. Development of two single family subdivisions was completed in mid-2022 to address the shortage of buildable lots. Sales of the lots has been encouraging with several new houses completed or currently under construction. The City also took steps to redirect Tax Increment funds to a market rate multifamily residential initiative. Reception to this program has been positive with several developers currently preparing proposals for consideration by the City Council.

Park and Recreation Improvements. The JBS/City of Worthington Field House and Recreation Center opened in 2022 providing indoor athletic and community activities throughout the cold weather months. More than \$5 million in facility improvements in six of Worthington's parks were completed this year. The City's new outdoor aquatic center is nearing completion and scheduled to open in late spring 2023.

Movie Theater. The New Grand Theater opened in May 2022. A five-screen state of the art movie theater boasting stadium seating, reclining seats and digital projectors. The City partnered with a theater operator to bring that big cinema experience generally only found in large metro areas.

Relevant Financial Policies. The City has a policy regarding General Fund reserve balances. The City plans for an unassigned fund balance in the General Fund equivalent to 35%-50% of the subsequent year's budgeted expenditures to provide working capital between semi-annual property tax settlements. Since the property tax settlements are received by the City in July and December, the City needs sufficient cash reserves to avoid short-term borrowing to finance operations. The City has unspendable or restricted fund balances for deferrals, prepaid items, inventories, assets held for resale and other legal obligations. The City also reports committed and assigned fund balances for special purposes.

The primary goal of the City's investment policy is to ensure the safety of the principal invested. Cash temporarily idle during the year is invested in certificates of deposit, obligations of the U.S. Treasury and government agencies. Cash balances from all City funds are pooled into an investment fund and investment income is distributed on a pro-rata basis at June 30 and December 31. A cash flow analysis is utilized and staggered in a way to meet projected liquidity needs. Capital financing for major improvements is provided through improvement bonds, general obligation bonds, tax increment bonds, or revenue bonds. Depending on the project, special assessments may be levied upon properties to share in the cost of the improvement project. The special assessments are collected over a period of time, typically over the life of the bond issue, and are used to help satisfy the improvement bond debt or reimburse the fund used to finance the project.

The City Council has also adopted financial management policies in order to allow for the planning of adequate funding of services desired by the public, to manage City finances wisely, and to carefully account for public funds. These policies are reviewed each year when the annual budget is adopted. The financial management policies included: operating budget policies; revenue policies; accounting, auditing and financial reporting policies; investment policies; debt policies; capital improvement policies; and risk management policies.

The City Council has adopted a comprehensive set of internal control procedures. The City's accounting system was developed and is continually evaluated to assure the adequacy of internal controls. Internal accounting controls are designed to provide reasonable but not absolute assurance in the areas of: safeguarding assets against loss from unauthorized use or disposition, reliability of financial records, and convenience of access for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the evaluation of cost and benefits requires estimates and judgments by management, and the cost of a control should not exceed the benefits likely to be derived. All internal controls are evaluated against the above criteria. It is our belief that the City's internal accounting controls adequately safeguard the City's assets and also provide reasonable assurance of properly recording financial transactions.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Worthington for its annual comprehensive financial report (ACFR) for the fiscal year ended December 31, 2021. This was the thirty-third consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized ACFR. This report satisfied both GAAP and applicable legal requirements.

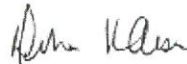

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. Credit also must be given to the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Worthington's finances.

Respectfully submitted,

Steven Robinson

INDEPENDENT AUDITOR'S REPORT

Mayor and City Council
City of Worthington, Minnesota

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Worthington, Minnesota, (the City) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City as of December 31, 2022, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the General fund, WRH fund, Recreation fund and Economic Development Authority fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Change in Accounting Principle

As described in Note 11 to the financial statements, the City adopted the provisions of Governmental Accounting Standard Board (GASB) Statement No. 87, Leases, for the year ended December 31, 2022. Adoption of the provisions of these statements results in significant change to the classifications of the components of the financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis starting on page 25 and the Schedules of Employer's Share of the Net Pension Liability, the Schedule of Changes in Net Pension Liability (Asset) and Related Ratios, the Schedules of Employer's Contributions and the Schedule of Changes in the Total OPEB Liability and Related Ratios starting on page 104 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining and individual fund financial statements and schedules and schedule of expenditures of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statement themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information in the report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statement do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 20, 2023, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the City of Worthington (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found starting on page 9 of this report.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$209,687,032 (net position). Of this amount, \$60,028,263 (*unrestricted net position*) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$2,868,827. The majority of the increase was the result of an increase in capital contributions.
- At the close of the current fiscal year, the City of Worthington's governmental funds reported combined ending fund balances of \$20,112,132, a decrease of \$7,383,033 in comparison with the prior year mainly due to capital expenditures during the year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$3,712,911, or 41.1 percent of total general fund expenditures.
- The City of Worthington retired existing debt of \$1,580,000 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of combining and individual fund financial statements and schedules that further explains and supports the information in the financial statements. Figure 1 reflects how the required parts of this annual report are arranged and relate to one another. In addition to these required elements, we have included a section with combining and individual fund financial statements and schedules that provide details about nonmajor governmental funds, which are added together and presented in single columns in the basic financial statements.

Figure 1
Required Components of the
City's Annual Financial Report

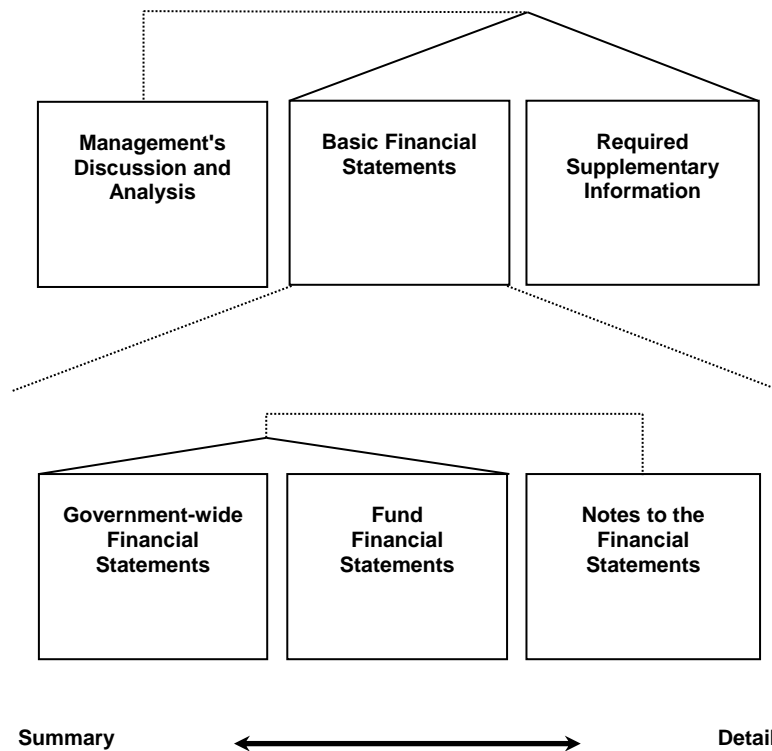

Figure 2 summarizes the major features of the City’s financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis explains the structure and contents of each of the statements.

Figure 2
Major Features of the Government-wide and Fund Financial Statements

	Fund Financial Statements			
	Government-wide Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire City government (except fiduciary funds) and the City’s component units	The activities of the City that are not proprietary or fiduciary, such as police, fire and parks	Activities the City operates similar to private businesses, such as the water and sewer system	Activities of the City held in trust for others
Required financial statements	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Activities 	<ul style="list-style-type: none"> • Balance Sheet • Statement of Revenues, Expenditures, and Changes in Fund Balances 	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Revenues, Expenses and Changes in Net Position • Statement of Cash Flows 	<ul style="list-style-type: none"> • Statement of Fiduciary Net Position • Statement of Changes in Fiduciary Net Position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both financial and short-term and long-term
Type of deferred outflows/inflows of resources information	All deferred outflows/inflows of resources, regardless of when cash is received or paid.	Only deferred outflows of resources expected to be used up and deferred inflows of resources that come due during the year or soon thereafter; no capital assets included	All deferred outflows/inflows of resources, regardless of when cash is received or paid	None reported
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	None reported

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, sanitation, culture and recreation, conservation and development, and interest and fiscal charges. The business-type activities of the City include the water, municipal wastewater, electric, industrial wastewater facility, storm water management, street lighting, liquor, airport and cable television activities.

The government-wide financial statements can be found starting on page 39 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local government, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. These statements focus on individual parts of the City government, reporting the City's operations in more detail than the government-wide financial statements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact by the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains numerous individual governmental funds, many of which are Debt Service funds which are combined for reporting. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General fund, WRH, Recreation, Economic Development Authority, the Debt Service funds (which are considered one fund for financial reporting), Improvement Construction, and the Aquatic Center Facility, all of which are considered to be major funds. Data from the other nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund and certain special revenue funds. Budgetary comparison statements have been provided for the General, WRH, Recreation, Economic Development Authority, Memorial Auditorium, Sales Tax Revenue, Event Center, and Wgtn EDA funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found starting on page 44 of this report.

Proprietary Funds. The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its water, municipal wastewater, electric, industrial wastewater facility, storm water management, street lighting, liquor, airport and cable television operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its data processing, safety promotion loss control, vacation and sick accrual, and health insurance plan activities. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, municipal wastewater and electric, all of which are considered to be major funds of the City. Conversely, other internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found starting on page 55 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found starting on page 58 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found starting on page 61 of this report.

Required Supplementary Information Other than MD&A. Governments have an option of including the budgetary comparison statements for the General fund and major special revenue funds as either part of the fund financial statements within the basic financial statements, or as required supplementary information after the footnotes. The City has chosen to present these budgetary statements as part of the basic financial statements. Additionally, this report also presents certain *required supplementary information* concerning the City's share of net pension liabilities (assets) for defined benefits plans, schedules of contributions, and progress in funding its obligation to provide pension and other postemployment benefits to its employees starting on page 104 of this report. The City has disclosed this information in Notes 4 and 7 to the financial statements and as separate required supplementary information.

Supplementary Information. The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented following the notes to the financial statements. Combining and individual fund financial statements and schedules can be found starting on page 114 of this report.

Statistical Section. Further, a statistical section has been included as part of the annual comprehensive financial report to facilitate additional analysis and can be found starting on page 158 of this report.

Government-wide Financial Analysis

The two government-wide statements report the City's net position and how they have changed. The following table presents net position which is the difference between the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is one way to measure the City's financial health, or position, over time. Over time increases or decreases in the City's net position are an indicator of whether the financial health is improving or deteriorating respectively.

The City's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$209,687,032 at the close of the most recent fiscal year. A large portion of the City's net position (68.5 percent) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Worthington's Summary of Net Position

	Governmental Activities			Business-type Activities			Total	
	2022	2021	Increase (Decrease)	2022	2021	Increase (Decrease)	2022	2021

Unrestricted	11.5	24.8		41.2	25.8			
	100.0 %	100.0 %		100.0 %	100.0 %			

Additionally, a portion of the City's net position (2.9 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* (28.6 percent) may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities.

Governmental Activities. Governmental activities increased the City's net position by \$986,696 accounting for 34.3 percent of the total increase in the City's net position. Key elements of this increase are as follows:

City of Worthington's Changes in Net Position

	Governmental Activities			Business-type Activities			Total	
	2022	2021	Increase (Decrease)	2022	2021	Increase (Decrease)	2022	2021

The following graphs depict various governmental activities and show the revenue and expenses directly related to those activities.

Expenses and Program Revenues - Governmental Activities

Revenues by Source - Governmental Activities

Business-type Activities. Business-type activities increased the City's net position by \$1,882,131, accounting for a 65.7 percent increase in the total growth in the City's net position. Key elements of this increase are as follows:

- Charges for services for business-type activities increased by \$1,884,017 or 5.2 percent. The majority of increases occurred in water, municipal wastewater, electric and industrial wastewater facility, all due to increased rates.

Expenses and Program Revenues - Business - type Activities

Revenues by Source - Business - type Activities

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The general government functions are contained in the General, special revenue, Debt Service, and capital projects funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$20,112,132, a decrease of \$7,383,033 in comparison with the prior year. Approximately negative (38.2) percent of this total amount, (\$7,660,880), constitutes unassigned fund balance, which is available for spending at the City's discretion. The remainder of fund balance (\$27,773,012) is not available for new spending because it is either 1) nonspendable (\$912,032), 2) restricted (\$5,742,121), 3) committed (\$17,889,264), or 4) assigned (\$3,229,595) for the purposes described in Note 3 in the fund balance section of each balance sheet.

The *General fund* is the chief operating fund of the City. At the end of the current year, unassigned fund balance of the General fund was \$3,712,911, while total fund balance reached \$8,974,952. As a measure of the General fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 41.2 percent of total General fund expenditures, while total fund balance represents 99.6 percent of that same amount.

The fund balance of the City's General fund increased by \$231,615 during the current fiscal year. This increase can be attributed to increased tax collections, a transfer from a custodial fund, and less market value loss on investments from prior year.

The *WRH fund* has a total fund balance of \$10,426,256, the majority of which is committed nonspendable due to advances to other funds. The net increase in fund balance during the current year was \$305,491. The increase is a result of increased transfers from the EDA fund.

The *Recreation fund* has a total fund balance of (\$1,379,784), the majority of which is unassigned due to the deficit in the fund. The net decrease in fund balance during the current year was \$2,433,308. The decrease is a result of costs relating to the field house building.

The *Economic Development Authority fund* has a total fund balance of (\$3,956,711), the majority of which is unassigned due to the deficit in the fund. The net decrease in fund balance during the current year was \$2,285, which is essentially breakeven.

The *Debt Service fund* has a total fund balance of \$2,476,645, all of which is restricted for the payment of debt service. The net decrease in fund balance during the current year in the Debt Service fund was \$124,856. The decrease is largely a result of property tax and special assessment collections being insufficient to cover debt service requirements.

The *Improvement Construction fund* has a total fund balance of \$1,687,449. The net decrease in fund balance during the current year was \$3,123,808. The decrease was a result of construction costs relating to the following projects: W Oxford-Elmwood to Park Ave, 8th/9th Ave to Dead End, 2020 overlay, Tap Trails, 27th St Extension project, Homewood Hills Street Reconstruction, and 2022 Overlay.

The *Aquatic Center Facility fund* has a total fund balance of (\$5,499,647). The net decrease in fund balance during the current year was \$2,811,936. The decrease was a result of construction costs relating to the construction of the aquatic center.

Proprietary Funds. Unrestricted net position of the enterprise funds at the end of the year amounted to \$49,729,456. Total increase in net position for enterprise funds was \$1,819,363. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget can be summarized as follows:

- \$570,135 in net adjustments increasing capital expenditures, \$135,694 in net adjustments increasing general government expenditures, and \$385,856 in adjustments increasing other financing sources and uses.

Capital Asset and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of December 31, 2022 amounts to \$186,606,113 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system improvements, machinery and equipment, park facilities, roads, highways and bridges.

Major capital asset events during the current fiscal year included the following:

- 2022 L70H Wheel Loader costing \$168,727.
- Purchase police portable radios costing \$108,177.
- Installed video security system throughout our city parks costing \$80,824.
- Construction started but not completes on street projects costing \$3,394,536 and recreation projects costing \$1,889,205 and aquatic center costing \$3,133,704.
- 2022 Watermain replacement costing \$3,201,555.
- Municipal Wastewater treatment facility costing \$17,123,697.
- Substation #3 equipment replacement costing \$3,422,629.
- Airport master plan update costing \$184,872.

Additional information on the City's capital assets can be found in Note 3D starting on page 76 of this report.

Long-term Debt. At the end of the current fiscal year, the City had total debt outstanding of \$40,326,482. Of this amount, \$955,000 comprises revenue related debt backed by the full faith and credit of the City, \$11,370,000 is general obligation debt and \$20,506,482 relates to PFA notes payable.

City of Worthington’s Outstanding Debt

	Governmental Activities			Business-type Activities			Total	
	2022	2021	Increase (Decrease)	2022	2021	Increase (Decrease)	2022	2021
General Obligation Bonds	\$ 11,370,000	\$ 12,410,000	\$ (1,040,000)	\$ -	\$ -	\$ -	\$ 11,370,000	\$ 12,410,000
G.O. Sales Tax Bonds	7,495,000	7,970,000	(475,000)	-	-	-	7,495,000	7,970,000
General Obligation Revenue Bonds	-	-	-	955,000	1,020,000	(65,000)	955,000	1,020,000
Notes Payable	-	-	-	20,506,482	4,647,249	15,859,233	20,506,482	4,647,249
Total	\$ 18,865,000	\$ 20,380,000	\$ (1,515,000)	\$ 21,461,482	\$ 5,667,249	\$ 15,794,233	\$ 40,326,482	\$ 26,047,249

The City’s total bonded debt increased by \$14,279,233, (54.8 percent) during the current fiscal year. This was a result of the City drawing on PFA notes.

The City maintains an “AA-” rating. Such was reaffirmed by Standards and Poor’s in 2020.

Minnesota statutes limit the amount of net general obligation debt a City may issue three percent of the total estimated market value of the City. The current debt limitation for the City is \$30,181,497, which is significantly in excess of the City’s outstanding general obligation debt.

Additional information on the City’s long-term debt can be found in Note 3F starting on page 80 of this report.

Economic Factors and Next Year’s Budgets and Rates

- The unemployment rate for Nobles County as of December 31, 2022 is 2.3 percent, which is lower than a year ago (3.0). This compares unfavorably to the State’s average unemployment rate of 2.5 percent and the national average rate of 3.7 percent.
- Inflationary trends in the region compare favorably to national indices.
- These factors were considered in preparing the City of Worthington’s budget for the 2023 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the City’s finances for all those with an interest in the City’s finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, City of Worthington, 303 Ninth Street, Worthington, Minnesota 56187.

City of Worthington, Minnesota
 Reconciliation of the Balance Sheet
 to the Statement of Net Position
 Governmental Funds
 December 31, 2022

Amounts reported for governmental activities in the statement of net position are different because

Total Fund Balances - Governmental Funds	\$ 20,112,132
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in the funds.	91,600,419
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds.	
Long-term liabilities at year-end consist of	
Bonds payable	(18,865,000)
Unamortized bond premium, net of amortization	(424,276)
Other postemployment benefits obligation	(1,041,401)
Net pension liability	(9,501,635)
Long-term assets are not available to pay current-period expenditures and, therefore, are unavailable in the funds.	
Delinquent property taxes	63,963
Special assessments	1,065,700
Governmental funds do not report a liability for accrued interest until due and payable.	(171,980)
Governmental funds do not report long-term amounts related to pensions and other postemployment benefits.	
Deferred outflows of pension resources	5,797,408
Deferred inflows of pension resources	(316,663)
Deferred outflows of other postemployment benefit resources	209,440
Deferred inflows of other postemployment benefit resources	(292,769)
Internal service funds are used by management to charge the costs of insurance and various services to individual funds. The assets and liabilities of the internal services funds are included in governmental activities in the statement of net position.	<u>406,106</u>
Total Net Position - Governmental Activities	<u><u>\$ 88,641,444</u></u>

City of Worthington, Minnesota
 Reconciliation of the Statement of
 Revenues, Expenditures and Changes in Fund Balances
 of Governmental Funds to the Statements of Activities -
 Governmental Funds
 For the Year Ended December 31, 2022

Amounts reported for governmental activities in the statement
 of activities are different because

Net Change in Fund Balances - Governmental Funds	\$ (7,383,033)
<p>Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over the estimated useful lives and reported as depreciation expense.</p>	
Capital outlay	10,636,589
Depreciation expense	(3,556,559)
<p>The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins and donations) is to decrease net position</p>	
Book value of disposed of capital assets	(176,902)
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.</p>	
Principal repayments	1,515,000
Bonds premiums amortization	34,185
<p>Interest on long-term debt in the statement of activities differs from the amount reported in the governmental fund because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.</p>	
	17,743
<p>Certain revenues are recognized as soon as they are earned. Under the modified accrual basis of accounting certain revenues cannot be recognized until they are available to liquidate liabilities of the current period.</p>	
Property taxes	21,072
Special assessments	(212,774)
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.</p>	
Other postemployment benefits cost	64,910
<p>Long-term pension activity is not reported in governmental funds.</p>	
Pension expense	107,421
Direct aid contributions	84,217
<p>Internal service funds are used by management to charge the costs of various services to individual funds. The net revenues of certain activities of internal service funds is reported with governmental activities.</p>	
	(165,173)
Change in Net Position - Governmental Activities	\$ 986,696

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 1: Summary of Significant Accounting Policies

The financial statements of the City of Worthington, Minnesota (the City) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The City's significant accounting policies are described below.

A. Reporting Entity

The City of Worthington is a municipal corporation formed under Section 412 of *Minnesota State Statutes* and operates under an elected Mayor and five-member Council. The Council and Mayor are elected on rotating terms in each even-numbered year. The accompanying financial statements present the government entities for which the City is considered to be financially accountable.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are also recorded as unearned revenue.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The City reports the following major governmental funds:

The *General fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *WRH fund* accounts for the activity surrounding the use of money obtained from the sale of the City-owned hospital. The revenue sources for the WRH fund are investment earnings and recapture payments from past due accounts that had previously been written off.

The *Recreation fund* accounts for the operations and maintenance of the City's recreational facilities programs including all City-owned parks, playgrounds and swimming beaches. The revenue sources for the recreation fund are general property taxes, charges for services, interest earnings, rebates and forfeited shelter deposits.

The *Economic Development Authority fund* accounts for the operations and maintenance of the City's Industrial Park. Financing is provided by general property taxes.

The *Debt Service fund* accounts for the accumulation of resources for, and the payment of general long-term debt principal and interest.

The *Improvement Construction fund* accounts for major capital expenditures for the street paving management program of the City.

The *Aquatic Center Facility fund* accounts for the activity for the existing aquatic center as well as the construction of the new aquatic center.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

The City reports the following major proprietary funds:

The *Water fund* is used to account for activities related to the operation of a water distribution system.

The *Municipal Wastewater fund* is used to account for activities related to the operation of a wastewater distribution system.

The *Electric fund* is used to account for activities related to the operation of electric generation and distribution systems.

Additionally, the City reports the following fund types:

Internal service funds account for the financing of goods and services provided by one department of the City, to other departments on a cost reimbursement basis. Internal service fund activities include data processing, safety promotion loss control, vacation and sick accrual and health insurance plan.

Fiduciary funds

Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. The City's Custodial fund accounts for activities of Olson Water, Garbage Collection and Waste Management Collection.

As a general rule the effect of interfund activity has been eliminated from government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's enterprise functions and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and of the City's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, and then unrestricted resources as they are needed. When unrestricted resources are available for use, it is the City's policy to use resources in the following order: 1) committed 2) assigned 3) unassigned.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. The proprietary funds' portion in the government-wide cash and temporary investments pool is considered to be cash and cash equivalents for purposes of the statement of cash flows.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

Cash balances from all funds are pooled and invested, to the extent available, in certificates of deposit and other authorized investments. Earnings on investments are allocated to the individual funds based upon the average of month-end cash and investment balances.

The City may invest idle funds as authorized by Minnesota statutes, as follows:

1. Direct obligations or obligations guaranteed by the United States or its agencies.
2. Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, rated in one of the two highest rating categories by a statistical rating agency, and have a final maturity of thirteen months or less.
3. General obligations of a state or local government with taxing powers rated "A" or better; revenue obligations rated "AA" or better.
4. General obligations of the Minnesota Housing Finance Agency rated "A" or better.
5. Obligation of a school district with an original maturity not exceeding 13 months and (i) rated in the highest category by a national bond rating service or (ii) enrolled in the credit enhancement program pursuant to statute section 126C.55.
6. Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System.
7. Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less.
8. Repurchase or reverse repurchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers.
9. Guaranteed investment contracts (GIC's) issued or guaranteed by a United States commercial bank, a domestic branch of a foreign bank, a United States insurance company, or its Canadian subsidiary, whose similar debt obligations were rated in one of the top two rating categories by a nationally recognized rating agency.

The broker money market funds operate in accordance with appropriate state laws and regulations. The reported value of these funds is the same as the fair value of the shares.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The City's recurring fair value measurements are listed in detail on page 89 and are valued using quoted market prices (Level 1 inputs).

The City has the following recurring fair value measurements as of December 31, 2022:

- U.S. Treasury notes and government agency securities of \$37,253,324 are valued using quoted market prices (Level 1 inputs)
- Negotiable certificates of deposit of \$4,066,458 are valued using a matrix pricing model (Level 2 inputs)

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

Investment Policy

Interest rate risk. In accordance with the City's investment policy, the City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than nine months.

Credit risk. Both the Minnesota Statutes and the City Council approve of the following investment instruments:

- a. Direct or guaranteed U.S. Government obligations;
- b. Interest bearing deposits and certificates of deposits.

Custodial risk. The City does not presently have a custodial credit risk policy. All of the City's investments are adequately collateralized according to State statutes.

Other investment instruments which are approved by the Minnesota Statutes and the City Council, but have not been purchased by the City, follow:

- a. General obligations of the State of Minnesota or Minnesota municipalities;
- b. Commercial paper issued by United States corporations or their Canadian subsidiaries, of the highest quality, and maturing in 270 days or less;
- c. Repurchase or reverse repurchase agreements with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers;
- d. Futures contracts sold under authority of Minnesota Statutes 471.56, subdivision 5;
- e. Federal agency or instrumentality issues
- f. Federally registered investment companies whose only investments are in direct or guaranteed U.S. Government obligations and/or Federal agency or instrumentality issues.

Property Taxes

City Council adopts a proposed budget and certifies its proposed property tax levy for the following year in September. Public hearings are held and the final property tax levy is adopted. The City certifies the final adopted property taxes to the Nobles County Auditor in December.

The County spreads all levies over taxable property. Such taxes become a lien on January 1 and are recorded as receivables by the City at that date. Revenues are accrued and recognized in the year collectible, net of delinquencies.

Taxpayers in two equal installments, on May 15 and October 15, may pay real property taxes. Personal property taxes may be paid on February 28 and June 30. The County provides tax settlements to cities and other local governmental units three times annually, in January, July and December.

Delinquent taxes receivable include the past six years' uncollected taxes. Delinquent taxes have been offset by deferred inflows of resources for delinquent taxes not received within 60 days after year-end in the governmental fund financial statements.

Note 1: Summary of Significant Accounting Policies (Continued)

Accounts Receivable

Accounts receivable include amounts billed for services provided before year end. Unbilled utility enterprise fund receivables are also included for services provided in 2022.

Loans to Other Funds, Loans Receivable and Loans to Other Governments

Noncurrent portions of long-term interfund loan receivables, loans receivable and loans to other governments are equally offset by a fund balance nonspendable account in applicable governmental funds to indicate that they do not constitute available spendable resources.

Special Assessments

Special assessments are levied against benefiting properties of the cost of a portion of special assessment improvement projects in accordance with state statutes. These assessments are collectible by the City over a term of years as approved by City Council resolution. Collection of annual installments (including interest) is handled by the County Auditor same manner as property taxes. Property owners are allowed to prepay future installments without interest or prepayment penalties.

Once a special assessment roll is adopted by the City Council, the amount attributed to each parcel is a lien upon that property until full payment is made or the amount is determined to be excessive by the City Council or court action. If special assessments are allowed to go delinquent, the property is subject to tax forfeit sale and the first proceeds of the sale (after costs, penalties, and expenses of sale) are remitted to the City in payment of delinquent special assessments. Generally, the City will collect the full amount of its special assessments not adjusted by the City Council or court action. Pursuant to state statutes, a property shall be subject to a tax forfeit sale after three years unless it is homestead, agriculture, or seasonal recreation land, in which event the property is subject to sale after five years.

Special assessments receivable consist of unportioned, delinquent, and noncurrent special assessments. Special assessments are recognized as revenue when they are received in cash or within 60 days after year-end. All governmental special assessments receivable are offset by a deferred inflow of resources in the fund financial statements.

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance nonspendable account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Inventories and Prepaid Items

Inventories held for resale are reported at the lower of cost or market on the first-in, first-out (FIFO) method and inventories of supplies which are reported at cost.

Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

Certain payments to vendors (such as service and maintenance agreements) reflect costs applicable to future accounting periods and are recorded as prepaid items in both governmental-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Lease Receivable

The City's lease receivable is measured at the present value of lease payments expected to be received during the lease term.

A deferred inflow of resources is recorded for the lease. The deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, water pipes, sewer pipes, and similar items and networks), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an estimated useful life in excess of one year. The City reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements.

In the case of initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the City chose to include items dating back to June 30, 1980. The City was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the City constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations the City values these capital assets at the acquisition value of the item at the date of its donation. For financial statement purposes only, a capitalization threshold is established for each capital asset category as follows:

	Water, Electric and Municipal Wastewater	All Other
Land	\$ 1,000	\$ 5,000
Land Improvements	1,000	5,000
Buildings and Building Improvements	1,000	5,000
Machinery, Equipment and Vehicles	1,000	5,000
Infrastructure	1,000	5,000
Other Assets	1,000	5,000
Easements	100,000	100,000

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

Property, plant and equipment of the City, as well as the component units, are depreciated using the straight-line method over the following useful lives:

Assets	Years
Infrastructure	30 - 50
Improvements other than buildings	10 - 50
Buildings and structures	20 - 50
Machinery and equipment	5 - 35
Furniture and fixtures	5 - 15

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items which qualify for reporting in this category. Accordingly, the items, deferred pension resources and deferred other postemployment benefit resources, are reported only in the statement of net position. These items result from actuarial calculations and current year pension contributions and OPEB contributions made subsequent to the measurement dates.

Compensated Absences

According to City policy, unused paid time off (PTO) is payable upon termination of employment. PTO payments are made at the employee's current wage rate. The City pays the vested extended sick leave bank (ESLB) amount per contract to an employee upon termination. Retiring employees have the option to use accrued PTO an vested hours for post-retirement benefits. Compensated absences reported in this fund are fully funded by the Vacation and Sick Accrual fund.

Postemployment Benefits Other Than Pensions

Under Minnesota statute 471.61, subdivision 2b., public employers must allow retirees and their dependents to continue coverage indefinitely in an employer-sponsored health care plan, under the following conditions: 1) Retirees must be receiving (or eligible to receive) an annuity from a Minnesota public pension plan, 2) Coverage must continue in group plan until age 65, and retirees must pay no more than the group premium, and 3) Retirees may obtain dependent coverage immediately before retirement. All premiums are funded on a pay-as-you-go basis. The liability was actuarially determined, in accordance with GASB Statement 75, at January 1, 2021. The General fund is typically used to liquidate governmental other postemployment benefits payable.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit plan administered by Worthington Fire Department Relief Association and additions to and deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. Investments are reported at fair value. The General fund is typically used to liquidate the governmental net pension liability.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 1: Summary of Significant Accounting Policies (Continued)

The total pension expense for the General Employee Plan (GERP), Police and Fire Plan (PEFPF), Defined Contribution Plan (DCP) and Worthington Fire Department Relief Association is as follows:

	Public Employees Retirement Association of Minnesota (PERA)			Fire Relief Association	Total All Plans
	GERP	PEFPF	DCP		
	City's proportionate share	\$ 729,521	\$ 526,079		
Proportionate share of State's contribution	23,628	59,003	-	-	82,631
Total pension expense	\$ 753,149	\$ 585,082	\$ 2,559	\$ (19,760)	\$ 1,321,030

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Inflows of Resources

In addition to liabilities, the statements of net position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies as needing to be reported in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Furthermore, the City has additional items which qualify for reporting in this category on the statement of net position. The items, deferred pension resources and deferred other postemployment benefit resources, are reported only in the statement of net position and results from actuarial calculations involving net differences between projected and actual earnings on plan investments and changes in proportions. Additionally, deferred lease resources are reported as deferred inflows resulting from lease amortization calculation.

Note 1: Summary of Significant Accounting Policies (Continued)

Fund Balance

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, or they are legally or contractually required to be maintained intact.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the City Council which is the City's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the City Council modifies or rescinds the commitment by resolution.

Assigned - Amounts constrained for specific purposes that are internally imposed. In governmental funds other than the General fund, assigned fund balance represents all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the General fund, assigned amounts represent intended uses established by the City Council itself or by an official to which the governing body delegates the authority. The City Council has adopted a fund balance policy which delegates the authority to assign amounts for specific purposes to the City Administrator or Finance Director.

Unassigned - The residual classification for the General fund and also negative residual amounts in other funds.

The City considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The City has formally adopted a fund balance policy for the General fund. The City's policy is to maintain a minimum unassigned fund balance of 35-50 percent of budgeted operating expenditures for cash-flow timing needs.

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is displayed in three components:

- a. Net investment of capital assets - Consists of capital assets, net of accumulated depreciation reduced by any outstanding debt attributable to acquire capital assets.
- b. Restricted net position - Consists of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.
- c. Unrestricted net position - All other net position balances that do not meet the definition of "restricted" or "net investment of capital assets".

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 2: Stewardship, Compliance and Accountability

A. Budgetary Information

The City employs the following procedures in establishing the budgetary data reflected in the financial statements:

1. The City Administrator submits to the City Council a proposed operating budget for the year commencing the following January. The operating budget includes proposed expenditures and means of financing them.
2. The budget is legally enacted through the passage of a City Council Resolution.
3. The City Council may authorize the transfer of budgeted amounts between departments within any fund.
4. Formal budgetary integration is employed as a management control device during the year for the General fund and certain special revenue funds. Formal budgetary integration is not employed for the debt service funds because effective budgetary control is alternatively achieved through general obligation bond indenture provisions. Budgetary control for capital projects funds is accomplished through the use of project controls.
5. Budgetary control is maintained at the object of expenditure category level within each activity, and in compliance with City Charter requirements. Also, inherent in this controlling function is the management philosophy that the existence of a particular item or appropriation in the approved budget does not automatically infer that it will be expended. The budget process has flexibility in that, where need has been properly demonstrated, an adjustment can be made within the department budget by the City Council. Therefore, there is a constant review process and expenditures are not approved until it has been determined that (1) adequate funds were appropriated, (2) the expenditure is still necessitated, and (3) funds are available.

The City Council adopts the annual budget. During the budget year, supplemental appropriations are authorized by the City Council. These amounts, shown in the financial statements as "Original Budget", represent the originally adopted budget and that labeled "Final Budget" includes all amendments made during the year by the City Council. Budget amendments were made to various funds resulting in increases in appropriations to the General fund of \$705,829, to the Recreation special revenue fund of \$99,134, to the Memorial Auditorium special revenue fund of \$12,000, to the Sales Tax Revenue special revenue fund of \$97,260, and to the Event Center special revenue fund of \$34,071.

The General fund operating budget includes an account for contingencies. The City Council may authorize, by resolution, a budget transfer from this contingency account to an area that is expected to overspend their budget.

Budgets for the General and certain special revenue funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

B. Excess of Expenditures Over Appropriations

The following budgeted special revenue fund had expenditures in excess of budget for the year ended December 31, 2022:

Fund	Budget	Actual	Excess of Expenditures Over Appropriations
Special Revenue			
Recreation	\$ 2,270,926	\$ 3,851,069	\$ 1,580,143
Economic Development Authority	275,669	386,236	110,567

Excess expenditures in the above fund will be funded excess revenues and available fund balance.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 2: Stewardship, Compliance and Accountability (Continued)

C. Deficit Fund Equity

The following funds had fund equity deficits at December 31, 2022:

Fund	Amount
Governmental Funds	
Major	
Recreation	\$ 1,379,784
Economic Development Authority	3,956,711
Aquatic Center Facility	5,499,647
Nonmajor	
Capital Projects	
CCSI Redevelopment	44,481
Northland Mall TIF #16	3,416
Cemstone Redevelopment TIF #19	15,720
Proprietary Funds	
Nonmajor	
Cable Television	1,895

It is anticipated that the Recreation deficit will be eliminated through future charges for services revenues and tax levies.

It is anticipated that the Economic Development Authority deficit will be eliminated through future revenue and tax levies.

It is anticipated that the Aquatic Center Facility deficit will be eliminated through future Sale Tax revenues.

It is anticipated that the CCSI Redevelopment, Northland Mall TIF #16, and Cemstone Redevelopment TIF #19 deficits will be funded through future tax increments.

It is anticipated that the Cable Television deficit will be eliminated by future charges for services revenues.

Note 3: Detailed Notes on All Funds

A. Deposits and Investments

Deposits

Custodial credit risk for deposits and investments is the risk that in the event of a bank failure, the City's deposits and investments may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. In accordance with Minnesota statutes and as authorized by the City Council, the City maintains deposits at those depository banks, all of which are members of the Federal Reserve System.

Minnesota statutes require that all City deposits be protected by insurance, surety bond or collateral. The fair value of collateral pledged must equal 110 percent of the deposits not covered by insurance, bonds or irrevocable standby letters of credit from Federal Home Loan Banks. Authorized collateral in lieu of a corporate surety bond includes:

- United States government Treasury bills, Treasury notes, Treasury bonds;
- Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 3: Detailed Notes on All Funds (Continued)

- General obligation securities of any state or local government with taxing powers which is rated “A” or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated “AA” or better by a national bond rating service;
- General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank’s public debt is rated “AA” or better by Moody’s Investors Service, Inc., or Standard & Poor’s Corporation; and
- Time deposits that are fully insured by any federal agency.

Minnesota statutes require that all collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection should be approved by the City.

At year-end, the City’s carrying amount of deposits was \$16,528,721, including \$169,749 reported in fiduciary funds. The bank balance was \$18,660,550. The bank balance was covered by federal depository insurance of \$810,100 and the remaining balance was collateralized with securities held by the pledging financial institution’s trust department in the City’s name. The primary government and component unit’s deposits and investments are pooled.

Investments

As of December 31, 2022 the City had the following investments that are insured or registered, or securities held by the City or it’s agent in the City’s name:

Types of Investments	Credit Quality/ Ratings (1)	Segmented Time Distribution (2)	Amount	Fair Value Measurement Using	
				Level 1	Level 2
Non-pooled Investments at Amortized Costs					
Money Market Funds	N/A	less than 1 year	\$ 13,372,488		
Non-pooled Investments at Fair Value					
Government Agency Securities	AA+	less than 1 year	8,761,100	\$ 8,761,100	\$ -
Government Agency Securities	AA+	more than 5 years	25,500,375	25,500,375	-
U.S. Treasury Notes	Aaa	less than 1 year	2,991,849	2,991,849	-
Negotiable Certificates of Deposit	Aaa	more than 5 years	4,066,458	-	4,066,458
Total Investments			\$ 54,692,270	\$ 37,253,324	\$ 4,066,458

(1) Ratings are provided by various credit rating agencies where applicable to indicate associated credit risk.

(2) Interest rate risk is disclosed using the segmented time distribution method.

There were no Level 3 investments in current year and therefore was not necessary to include.

N/A indicates not applicable or available.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 3: Detailed Notes on All Funds (Continued)

The City's investment policy follows Minnesota statutes, which reduces the City's exposure to credit, custodial credit and interest rate risk. Specific risk information for the City is as follows:

- *Credit Risk.* The credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Ratings are provided by various credit rating agencies and where applicable, indicate associated credit risk. Minnesota Statutes limit the City's investments to the list on page 78 of the notes.
- *Custodial Credit Risk.* The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City typically limits its exposure by purchasing insured or registered investments.
- *Concentration of Credit Risk.* The concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At December 31, 2022, there were no investments in one issuer (other than investments issued by or explicitly guaranteed by U.S. government, mutual funds, external investment pools, and other pooled investments) that represent 5 percent or more of the City's investment.
- *Interest Rate Risk.* The interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Cash on Hand

Cash in the possession of the City, consisting of petty cash and change funds totals \$4,200.

Cash and Investments Summary

A reconciliation of cash and investments as shown on the statement of net position for the City follows:

	Primary Government	Fiduciary Funds	Totals
Deposits	\$ 16,358,972	\$ 169,749	\$ 16,528,721
Investments	54,692,270	-	54,692,270
Cash on Hand	4,200	-	4,200
 Total	 \$ 71,055,442	 \$ 169,749	 \$ 71,225,191

B. Loans Receivable

Specific special revenue funds make installment loans to promote economic development within the City. Balances of economic development loans for the year ended December 31, 2022 are as follows:

Fund	Amount
Primary Government	
Special Revenue	
WRH	\$ 1,093,152
Small Cities Grant	920,000
Wgtn EDA	245,989
Allowance for forgivable loans	(620,000)
 Total Governmental Activities	 \$ 1,639,141

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 3: Detailed Notes on All Funds (Continued)

The WRH fund has two outstanding loans receivable. The loan to Southwest Mental Health has an interest rate of 2.0% and matures March 1, 2043. The loan to MN West Housing matures February 1, 2042 and has an interest rate of 2.0%.

The Small Cities Grant fund has four outstanding loans receivable. All payments are deferred until maturity which ranges from 2040-2043. Each loan has 0% interest rate.

The City has ten outstanding loans through the Wgtn EDA. These loans are to businesses to promote economic development in the City. Each has their own amortization schedule with varying interest and maturity dates.

C. Leases Receivable

The City leases various buildings out to companies. These agreements contain various renewal and extension options. The latest maturity date is projected to be in in 2027. Long-term lease activity for the year ended December 31, 2022 was as follows:

Description	Issue Date	Discount Rate	Current Year Infow of Resources	Balance at Year End
Bison-Holdings, LLC Building	01/01/19	0.38 %	\$ 42,000	\$ 41,914
The Movie Guy, Inc Building	03/01/22	0.74	50,000	246,111
Total				<u>\$ 288,025</u>

E. Interfund Receivables, Payables and Transfers

The composition of interfund balances at December 31, 2022 is as follows:

Due from/to Other Funds

Receivable Fund	Primary Government		Amount
	Payable Fund		
General	Recreation		\$ 1,146,433
	PIR Series Bonds		4,501
	Aquatic Center Facility		734,788
	Nonmajor governmental		18,332
WRH	Nonmajor governmental		26,357
Total			<u>\$ 1,930,411</u>
Governmental activities - internal balances	Business-type activities - internal balances		<u>\$ 509,407</u>

The above interfund balances related to eliminating cash deficits except for the \$26,357 due to the WRH fund which was to provide tax increment financing funded internally for the hotel portion of the Event Center.

Advances from/to Other Funds

Receivable Fund	Payable Fund	Interest Rate	Issue Date	Maturity Date	Amount
General	Nonmajor governmental	6.00 %	12/29/06	02/01/34	\$ 68,084
	Nonmajor enterprise	2.00	12/23/20	12/23/26	651,333
WRH	Economic Development Authority	0.00	02/01/20	undetermined	4,247,000
	Aquatic Center Facility	0.00	11/29/21	undetermined	3,150,000
Nonmajor Governmental	Aquatic Center Facility	0.00	08/25/22	undetermined	1,600,000
Totals					<u>\$ 9,716,417</u>

The purpose of the \$68,084 interfund advance is a result of a redevelopment project. As tax increments are collected in future, the General fund will be paid back the amount transferred for project costs.

The interfund advance for \$651,333 from the General fund to the Liquor fund (nonmajor enterprise) is due to the purchase of a building as well as remodeling the building for the new liquor store, which will be paid back over ten years.

The purpose of the \$4,247,000 interfund advance was for construction of a new theater complex. As revenues and tax levies are collected in the future, the general fund will be paid back the amount transferred for project costs.

The purpose of the \$3,150,000 interfund advance was to fund the Aquatic Center. It will be paid back with future Sale Tax dollars.

The purpose of the \$1,600,000 interfund advance was to fund the Aquatic Center. It will be paid back with future Sale Tax dollars.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 3: Detailed Notes on All Funds (Continued)

Interfund Transfers

The following transfers were made for the year ended December 31, 2022:

Fund	Transfers In								Total
	General	WRH	Economic Development Authority	PIR Series Bonds	Nonmajor Governmental	Water	Municipal Wastewater	Electric	
Transfers Out									
General	\$ -	\$ 23,454	\$ -	\$ -	\$ -	\$ 11,727	\$ 11,727	\$ -	\$ 46,908
Economic Development Authority	-	202,171	-	-	-	-	-	-	202,171
Nonmajor governmental	-	-	-	604,593	2,329,478	-	-	-	2,934,071
Electric	720,137	-	28,482	-	-	-	-	-	748,619
Nonmajor enterprise	275,000	-	-	-	-	-	-	165,000	440,000
Internal Service fund	250,000	-	-	-	-	-	-	-	250,000
Total	\$ 1,245,137	\$ 225,625	\$ 28,482	\$ 604,593	\$ 2,329,478	\$ 11,727	\$ 11,727	\$ 165,000	\$ 4,621,769

During 2022 there were several routine transfers that occurred. The Electric fund (\$720,137) and Liquor fund (\$275,000) transfers to the General fund every year as a transfer in lieu of taxes. The Safety/Promotion Loss Control fund (\$250,000) transfer every year to help offset the city's tax levy.

During 2022, three non-routine transfers occurred. The first non-routine transfer occurred in the WRH fund (\$202,171), the transfer was for the repayment of loan proceeds for sale of multiple parcels of land. The second non-routine transfer occurred in the Economic Development Authority fund (\$28,482) for the development of a housing subdivision. The final non-routine transfer was in the Private Development Assistance Spending Plan fund (\$2,329,478), the transfer was for the funding of potential future private development of various housing and business building rehabilitations in downtown Worthington brought about by legislative actions.

F. Long-term Debt

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital improvements. General obligation bonds have been issued for governmental activities.

General obligation bonds are direct obligations and pledge the full faith and credit of the government. General obligation bonds currently outstanding are as follows:

General Obligation Bonds

The following bonds were issued to provide funding for various street reconstruction projects, street improvement projects, and improvements to City facilities. Revenue to retire this bond issue comes from ad valorem tax levies.

Note 4: Defined Benefit Pension Plan - Statewide

A. Plan Description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with *Minnesota statutes*, chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan

All full-time and certain part-time employees of the City are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

Public Employees Police and Fire Plan

The Police and Fire Plan, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the Police and Fire Plan also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

B. Benefits Provided

PERA provides retirement, disability and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

General Employee Plan Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989 receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent for average salary for all years of service. For members hired prior to July 1, 1989 a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989 normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

December 31, 2022

Note 4: Defined Benefit Pension Plan - Statewide (Continued)

Police and Fire Plan Benefits

Benefits for Police and Fire Plan members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50 percent after five years up to 100 percent after ten years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014 vest on a prorated basis from 50 percent after ten years up to 100 percent after twenty years of credited service. The annuity accrual rate is 3-percent of average salary for each year of service. For Police and Fire Plan members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

Benefit increases are provided to benefit recipients each January. The postretirement increase is fixed at 1 percent. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota statutes chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

General Employees Fund Contributions

Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2022 and the City was required to contribute 7.50 percent for Coordinated Plan members. The City's contributions to the General Employees Fund for the years ending December 31, 2022, 2021 and 2020 were \$387,993, \$381,160 and \$376,935, respectively. The City's contributions were equal to the contractually required contributions for each year as set by state statute.

Police and Fire Fund Contributions

Police and Fire members were required to contribute 11.80 percent of their annual covered salary in fiscal year 2022 and the City was required to contribute 17.79 percent for Police and Fire Plan members. The City's contributions to the Police and Fire Fund for the years ending December 31, 2022, 2021 and 2020 were \$346,233, \$349,062 and \$320,557, respectively. The City's contributions were equal to the contractually required contributions for each year as set by state statute.

D. Pension Costs

General Employees Fund Pension Costs

At December 31, 2022, the City of Worthington reported a liability of \$5,393,542 for its proportionate share of the General Employees Fund's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million. The state of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$158,130. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2021 through June 30, 2022 relative to the total employer contributions received from all of PERA's participating employers. The City's proportionate share was 0.0681 percent which was a decrease of 0.0018 percent from its proportion measured as of June 30, 2021.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 4: Defined Benefit Pension Plan - Statewide (Continued)

City's Proportionate Share of the Net Pension Liability	\$ 5,393,542
State of Minnesota's Proportionate Share of the Net Pension Liability Associated with the City	<u>158,130</u>
Total	<u><u>\$ 5,551,672</u></u>

For the year ended December 31, 2022, the City recognized pension expense of \$729,521 for its proportionate share of the General Employees Plan's pension expense. In addition, the City recognized \$23,628 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

At December 31, 2022, the City reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 45,051	\$ 59,154
Changes in Actuarial Assumptions	1,251,945	22,581
Net Difference Between Projected and Actual Earnings on Plan Investments	44,698	-
Changes in Proportion	62,040	41,432
Contributions Paid to PERA Subsequent to the Measurement Date	<u>195,666</u>	<u>-</u>
Total	<u><u>\$ 1,599,400</u></u>	<u><u>\$ 123,167</u></u>

The \$195,666 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

2023	\$ 509,946
2024	472,895
2025	(190,038)
2026	487,764

Police and Fire Fund Pension Costs

At December 31, 2022, the City reported a liability of \$6,962,568 for its proportionate share of the Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2021 through June 30, 2022 relative to the total employer contributions received from all of PERA's participating employers. The City's proportionate share was 0.1600 percent which was a 0.0010 percent decrease from its proportion measured June 30, 2021.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 4: Defined Benefit Pension Plan - Statewide (Continued)

The State of Minnesota contributed \$18 million to the Police and Fire Fund in the plan fiscal year ended June 30, 2022. The contribution consisted of \$9 million in direct state aid that does meet the definition of a special funding situation and \$9 million in supplemental state aid that does not meet the definition of a special funding situation. The \$9 million direct state was paid on October 1, 2021. Thereafter, by October 1 of each year, the state will pay \$9 million to the Police and Fire Fund until full funding is reached or July 1, 2048, whichever is earlier. The \$9 million in supplemental state aid will continue until the fund is 90 percent funded, or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90 percent funded, whichever occurs later.

The State of Minnesota is included as a non-employer contributing entity in the Police and Fire Retirement Plan Schedule of Employer Allocations and Schedule of Pension Amounts by Employer, Current Reporting Period Only (pension allocation schedules) for the \$9 million in direct state aid. Police and Fire Plan employers need to recognize their proportionate share of the State of Minnesota's pension expense (and grant revenue) under GASB 68 special funding situation accounting and financial reporting requirements. For the year ended December 31, 2022, the City recognized pension expense of \$526,079 for its proportionate share of the Police and Fire Plan's pension expense. In addition, the City recognized an additional \$59,003 as pension expense (grant revenue) for its proportionate share of the State of Minnesota's contribution of \$9 million to the Police and Fire Fund.

The State of Minnesota is not included as a non-employer contributing entity in the Police and Fire Pension Plan pension allocation schedules for the \$9 million in supplemental state aid. The City recognized \$59,003 for the year ended December 31, 2022, as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota's on-behalf contributions to the Police and Fire Fund.

At December 31, 2022, the City reported its proportionate share of Police and Fire Plan's deferred outflows of resources and deferred inflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 427,536	\$ 8,177
Changes in Actuarial Assumptions	4,129,054	68,504
Net Difference Between Projected and Actual Earnings on Plan Investments	82,712	-
Changes in Proportion	53,079	124,622
Contributions Paid to PERA Subsequent to the Measurement Date	178,603	-
Total	\$ 4,870,984	\$ 201,303

The \$178,603 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

2023	\$ 852,191
2024	867,972
2025	755,408
2026	1,436,207
2027	579,300

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 4: Defined Benefit Pension Plan - Statewide (Continued)

E. Long-Term Expected Return on Investment

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic Equity	33.5 %	5.10 %
International Equity	16.5	5.30
Private Markets	25.0	5.90
Fixed Income	25.0	0.75
Total	<u>100.0 %</u>	

F. Actuarial Assumptions

The total pension liability in the June 30, 2022 actuarial valuation was determined using an individual entry-age normal actuarial cost method. The long-term rate of return on pension plan investments used in the determination of the total liability is 6.5 percent. This assumption is based on a review of inflation and investments return assumptions from a number of national investment consulting firms. The review provided a range of return investment return rates deemed to be reasonable by the actuary. An investment return of 6.5 percent was deemed to be within that range of reasonableness for financial reporting purposes.

Inflation is assumed to be 2.25 percent for the General Employees Plan and 2.25 percent for the Police and Fire Plan. Benefit increases after retirement are assumed to be 1.25 percent for the General Employees Plan. The Police and Fire Plan benefit increase is fixed at 1 percent per year and that increase was used in the valuation.

Salary growth assumptions in the General Employees Plan range in annual increments from 10.25 percent after one year of service to 3.0 percent after 27 years of service. In the Police and Fire Plan, salary growth assumptions range from 11.75 percent after one year of service to 3.0 percent after 24 years of service.

Mortality rates for the General Employees Plan are based on the Pub-2010 General Employee Mortality Table. Mortality rates for the Police and Fire Plan is based on the Pub-2010 Public Safety Employee Mortality tables. The tables are adjusted slightly to fit PERA's experience.

Actuarial assumptions used in the June 30, 2022 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and become effective with the July 1, 2020 actuarial valuation. The most recent four-year experience study for the Police and Fire Plan was completed in 2020 were adopted by the Board and became effective with the July 1, 2021 actuarial valuation.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 4: Defined Benefit Pension Plan - Statewide (Continued)

The following changes in actuarial assumptions and plan provisions occurred in 2022:

General Employees Fund

Changes in Actuarial Assumptions

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

Changes in Plan Provisions

- There were no changes in plan provisions since the previous valuation.

Police and Fire Fund

Changes in Actuarial Assumptions

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.
- The single discount rate changed from 6.50 percent to 5.40 percent.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

G. Discount Rate

The discount rate used to measure the total pension liability in 2022 was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

In the Police and Fire Fund, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members through June 30, 2060. Beginning in fiscal year ended June 30, 2061 for the Police and Fire Fund, projected benefit payments exceed the funds' projected fiduciary net position. Benefit payments projected after were discounted at the municipal bond rate of 3.69 percent (based on the weekly rate closest to but not later than the measurement date of the Fidelity "20-Year Municipal GO AA Index"). The resulting equivalent single discount rate of 5.40 percent for the Police and Fire Fund was determined to give approximately the same present value of projected benefits when applied to all years of projected benefits as the present value of projected benefits using 6.5 percent applied to all years of projected benefits through the point of asset depletion and 3.69 percent thereafter.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 4: Defined Benefit Pension Plan - Statewide (Continued)

H. Pension Liability Sensitivity

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

	City Proportionate Share of NPL		
	1 Percent Decrease (5.50%)	Current (6.50%)	1 Percent Increase (7.50%)
General Employees Fund	\$ 8,519,383	\$ 5,393,542	\$ 2,829,871
	1 Percent Decrease (4.40%)	Current (5.10%)	1 Percent Increase (6.40%)
Police and Fire Fund	10,536,954	6,962,568	4,072,891

I. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

Note 5: Public Employees Defined Contribution Plan

The mayor and five council members of the City of Worthington are covered by the Defined Contribution Plan (DCP), a multiple-employer deferred compensation plan administered by PERA. The DCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota Statutes, Chapter 353D.03, specifies plan provisions, including the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes five percent of salary which is matched by the elected official's employer. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2.0 percent of employer contributions and twenty-five hundredths of 1.0 percent (0.25 percent) of the assets in each member's account annually.

Total contributions made by the City during the fiscal year 2022 were:

Contribution Amount		Percentage of Covered Payroll		Required Rate
Employee	Employer	Employee	Employer	
\$ 2,559	\$ 2,559	5.00%	5.00%	5.00%

The City and council member's contributions to the DCP plan for the years ending December 31, 2022, 2021 and 2020 were \$2,559, \$2,422 and \$2,425, respectively.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 6: Defined Benefit Pension Plans - Fire Relief Association

A. Plan Description

All Fire Relief Association members of the Worthington Fire Department (the Department) are covered by a defined benefit plan administered by the Worthington Fire Department Relief Association (the Association). As of December 31, 2022, the plan covered 31 active firefighters, 11 retired participants and 3 vested terminated fire fighters whose pension benefits are deferred. The plan is a single employer retirement plan and is established and administered in accordance with Minnesota statute, chapter 69 and 424.

The Association maintains a separate Special fund to accumulate assets to fund the retirement benefits earned by the Department's membership. Funding for the Association is derived from an insurance premium tax in accordance with the Volunteer Firefighter's Relief Association Financing Guidelines Act of 1971 (chapter 261 as amended by chapter 509 of Minnesota statutes 1980). Funds are also derived from investment income.

B. Benefits Provided

A fire fighter who completes at least 20 years as an active member of the Department is entitled, after age 50, to a full service pension upon retirement.

The bylaws of the Association also provide for an early vested service pension for a retiring member who has completed fewer than 20 years of service. The reduced pension, available to members with 10 years of service, shall be equal to 60 percent of the pension as prescribed by the bylaws. This percentage increases 4 percent per year so that at 20 years of service, the full amount prescribed is paid. Members who retire with less than 20 years of service and have reached the age of 50 years and have completed at least 10 years of active membership are entitled to a reduced service pension not to exceed the amount calculated by multiplying the member's service pension for the completed years of service times the applicable non-forfeitable percentage of pension.

C. Contributions

Minnesota statutes, chapters 424 and 424A authorize pension benefits for volunteer fire relief associations. The plan is funded by fire state aid, investment earnings and, if necessary, employer contributions as specified in Minnesota statutes and voluntary City contributions (if applicable). The State of Minnesota contributed \$49,566 in fire state aid to the plan on behalf of the City Fire Department for the year ended December 31, 2022. Required employer contributions are calculated annually based on statutory provisions. The City's statutorily-required contributions to the plan for the year ended December 31, 2022 were \$49,566. The City made voluntary contributions to the plan of \$35,974. The firefighter has no obligation to contribute to the plan.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 6: Defined Benefit Pension Plans - Fire Relief Association (Continued)

D. Pension Costs

At December 31, 2022, the City reported a net pension liability (asset) of \$70,608 for the plan. The net pension liability (asset) was measured as of December 31, 2021. The total pension liability used to calculate the net pension liability (asset) in accordance with GASB 68 was determined by PERA, Inc. applying an actuarial formula to specific census data certified by the Department. The following table presents the changes in net pension liability (asset) during the year:

	Total Pension Liability <u>(a)</u>	Plan Fiduciary Net Position <u>(b)</u>	Net Pension Liability (Asset) <u>(a-b)</u>
Beginning Balance January 1, 2022	\$ 1,032,151	\$ 1,100,568	\$ (68,417)
Changes for the Year			
Service cost	40,991	-	40,991
Interest cost	50,992	-	50,992
Nonemployer contributions	-	85,540	(85,540)
Net investment income	-	(132,582)	132,582
Benefit payments	<u>(106,620)</u>	<u>(106,620)</u>	<u>-</u>
Total Net Changes	<u>(14,637)</u>	<u>(153,662)</u>	<u>139,025</u>
Ending Balance December 31, 2022	<u>\$ 1,017,514</u>	<u>\$ 946,906</u>	<u>\$ 70,608</u>

For the year ended December 31, 2022, the City recognized negative pension expense of \$19,760 for the plan.

At December 31, 2022, the City reported deferred inflows of resources and deferred outflows of resources and its contributions subsequent to the measurement date related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 36,646	\$ 6,236
Changes in Actuarial Assumptions	8,116	2,561
Net Difference Between Projected and Actual Earnings on Plan Investments	<u>149,666</u>	<u>50,194</u>
Total	<u>\$ 194,428</u>	<u>\$ 58,991</u>

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 6: Defined Benefit Pension Plans - Fire Relief Association (Continued)

The net amount of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

2023	\$	14,479
2024		37,410
2025		38,596
2026		39,199
2027		2,739
Thereafter		3,014

E. Actuarial Assumptions

The total pension liability at December 31, 2022 was determined using the entry age normal actuarial cost method and the following actuarial assumptions:

Retirement Eligibility at Age 50 With 20 Years of Service		N/A
Salary Increases		N/A
Inflation	2.50% per year	
Investment Rate of Return		5.00%
20 Year Municipal Bond Yield		N/A

The following changes in assumptions occurred in 2022:

- The mortality table used to measure funding liability has been changed from PubS-2010 Mortality with generational improvements projected beginning in 2010 based on SOA Scale MP-2019 to PubS-2010 Mortality with generational improvements projected beginning in 2010 based on SOA Scale MP-2021. This results in an decrease in liability and normal cost.

The following changes in benefit terms occurred in 2022:

- The lump sum benefits have been updated to \$2,979 and \$361 as of January 1, 2021. This results in an increase in liability and normal cost.

The 5.00 percent long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using the plan's target investment allocation along with long-term return expectations by asset class. Inflation expectations were applied to derive the nominal rate of return for the portfolio.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 6: Defined Benefit Pension Plans - Fire Relief Association (Continued)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic Equity	35.0 %	5.07 %
International Equity	20.0	5.17
Domestic Fixed Income	10.0	0.98
Commodities	5.0	2.05
Alternative	5.0	2.73
Cash	25.0	(0.25)
Total	<u>100.0 %</u>	

F. Discount Rate

The discount rate used to measure the total pension liability was 5.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Professional judgment on future contributions has been applied in those cases where contribution patterns deviate from the actuarially determined rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following presents the City's net pension liability (asset) for the plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate one percent lower or one percent higher than the current discount rate:

	1 Percent Decrease (4.00%)	Current (5.00%)	1 Percent Increase (6.00%)
Defined Benefit Plan	\$ 119,265	\$ 70,608	\$ 25,233

H. Pension Plan Fiduciary Net Position

The Association issues a publicly available financial report. The report may be obtained by writing to the Worthington Fire Department Relief Association, 830 2nd Ave, Worthington, MN 56187.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 7: Post-Employment Benefits Other Than Pensions

A. Plan Description

The City administers a single-employer defined benefit healthcare plan (“the Retiree Health Plan”). The plan provides lifetime healthcare insurance for eligible retirees and their spouses through the City’s group health insurance plan, which covers both active and retired members. Benefit provisions are established through negotiations between the City and the union representing employees and are renegotiated each bargaining period. The component unit is included in the City’s plan. The Retiree Health Plan does not issue a publicly available financial report.

At December 31, 2022, the following employees were covered by the benefit terms:

Inactive Plan Members or Beneficiaries Currently Receiving Benefit Payments	3
Active Plan Members	94
	94
Total Plan Members	97

B. Funding Policy

Contribution requirements also are negotiated between the City and union representatives. The City does not contribute to the cost of current-year premiums for eligible retired plan members and their spouses. For the year ended December 31, 2022, the City had no direct contributions to the Plan.

C. Actuarial Methods and Assumptions

The City’s total OPEB liability of \$1,406,836 was measured as of December 31, 2022, and was determined by an actuarial valuation as of January 1, 2021. Roll forward procedures were used to roll forward the total OPEB liability to the measurement date.

The total OPEB liability in the January 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	4.31%
20-Year Municipal Bond Yield	4.31%
Dental Rate	N/A
Inflation Rate	2.25%
Salary Increases	N/A
Medical Trend Rate	7.5% grading to 4.50% over 7 years

The discount rate used to measure the total OPEB liability was 4.31 percent. Assets were projected using expected benefit payments and expected asset returns. Expected benefit payments by year were discounted using the expected asset return assumption for years in which the assets were sufficient to pay all benefit payments. Any remaining benefit payments after the trust fund is exhausted are discounted at the 20-year municipal bond rate. The equivalent single rate is the discount rate.

Mortality rates were based on the SOA-2010 Headcount Weighted Mortality Tables with MP-2021 Generational Improvement Scale.

The actuarial assumptions used in the December 31, 2022 valuation were based on input from a variety of published sources of historical and projected future financial data. Each assumption was reviewed for reasonableness with the source information as well as for consistency with the other economic assumptions.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 7: Post-Employment Benefits Other Than Pensions (Continued)

D. Changes in the Total OPEB Liability

	<u>Total OPEB Liability</u>
Beginning Balance January 1, 2022	<u>\$ 1,382,471</u>
Changes for the Year	
Service cost	94,778
Interest	32,877
Assumption changes	(244,681)
Differences between expected and actual experience	173,628
Benefit payments	<u>(32,237)</u>
Total Net Changes	<u>24,365</u>
Ending Balance December 31, 2022	<u><u>\$ 1,406,836</u></u>

Since the prior measurement date, the following assumptions changed:

- The discount rate as of the Measurement Date has been updated based on a yield for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale). The current full valuation uses a discount rate of 2.25% as of January 1, 2022 and 4.31% as of December 31, 2022. This change caused a significant decrease in the City's liabilities. The discount rate will be updated annually to reflect market conditions as of the Measurement Date.
- Termination, disability, retirement, and salary increase rates have been set to follow the most recent PERA of Minnesota Actuarial Valuations for General employees and Police as of July 1, 2021. This change in aggregate caused a slight increase in liabilities.
- The mortality improvement scale applied to all mortality tables has been updated from MP-2020 to MP-2021. This change caused a slight increase in liabilities.
- Health care trend rates have been set to an initial rate of 7.5% for fiscal 2023 decreasing by 0.5% annually to an ultimate rate of 4.5%. This change caused an increase in liabilities.

In addition, claims costs and premiums were updated for 2023, which caused a significant increase in liabilities. The main driver of the increase is using the new employee plus one coverage tier instead of family coverage to determine spouse contribution rates. Updated census data caused a decrease in liabilities.

Since the prior measurement date, there were no changes in benefit terms.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 7: Post-Employment Benefits Other Than Pensions (Continued)

E. Sensitivity of the Total OPEB Liability

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.31 percent) or one percentage-point higher (5.31 percent) than the current discount rate:

1 Percent Decrease (3.31%)	Current (4.31%)	1 Percent Increase (5.31%)
\$ 1,544,375	\$ 1,406,836	\$ 1,281,257

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a Healthcare Cost Trend Rates that is one percentage point lower (6.50 percent decreasing to 3.50 percent) or one percentage-point higher (8.50 percent increasing to 5.50 percent) than the current cost trend rate:

1 Percent Decrease (6.5% Decreasing to 3.5%)	Healthcare Cost Trend Rates (7.5% Decreasing to 4.5%)	1 Percent Increase (8.5% Decreasing to 5.5%)
\$ 1,232,972	\$ 1,406,836	\$ 1,612,560

F. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2022, the City recognized OPEB expense of \$77,769. At December 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 154,336	\$ 130,895
Changes in Actuarial Assumptions	128,598	264,609
Total	\$ 282,934	\$ 395,504

Amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended December 31	
2023	\$ (17,651)
2024	(17,651)
2025	(17,651)
2026	(17,648)
2027	(9,239)
Thereafter	(32,730)

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 8: Other Information

A. Risk Management

The City has an internal service fund called safety promotion/loss control. This fund was set up to account and finance the City's uninsured risk of loss. The risk of loss is as follows:

- The amount of the deductible
- Specific property items, which are of low risk for damage, that are uninsured. (This property list is included in the insurance manual)
- This fund will absorb the annual fluctuations in the cost of workers compensation.
- This fund is to be used to promote health, safety and fitness. Ten percent of insurance refunds, which are receipted into this fund, are set aside to promote health and safety.
- This fund is to be used for purchases of security-type equipment for City buildings.

All funds of the City participate in this program and make a payment to the safety promotions/loss control fund based on the amount of savings each fund incurred by the selection of the higher deductible amount.

Due to a couple high health insurance claim years, the City opted out of being partially self-funded and joined in a State of Minnesota Health Insurance Plan known as Public Employees Insurance Program (PEIP). The City renews on a calendar year basis, which allows for better timing when budgeting subsequent year's premium changes. The City offers employees three plans, including a high-deductible plan, which results in lower overall costs to the City. For 2022, the City had substantial premium increases (31.0%) overall to all three plans.

B. Contingent Liabilities

Commitments for current and future capital projects have been assigned in their respective funds as of December 31, 2022. Financial resources are available to fund the total amount of unexpended authorizations.

The City is, from time to time, involved in lawsuits arising in the ordinary course of its business that, in the opinion of management, will not have a material effect on the City's results of operations. The City is not currently involved in any suits.

C. Joint Ventures

Cable 3 Television

The City and Independent School District (ISD) 518, Worthington, entered into a joint powers agreement for the purpose of operating Worthington Cable 3 Television Public Access Channel. The City shall remit to the Board all franchise fees and subscriber payments which are collected by two local cable companies pursuant to the franchise agreement between the City and respective cable companies. The amount remitted approximates the amount budgeted by the Board and no material surplus or deficits exists or is anticipated. Audited financial state were not available for Cable 3 television for the year ending December 31, 2022. However, internal statements were issued and reflected a positive financial position at year-end. There were no related party transactions for the year.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 8: Other Information (Continued)

Public Transportation

The City and Nobles County entered into a joint powers' agreement for purposes of jointly and cooperatively operating, administering, promoting and managing public transportation within Nobles County, including the City of Worthington. The governing body shall consist of two Council members and the Administrator of the City of Worthington, and two Commissions and the Administrator of Nobles County. In addition, one additional at-large member will be appointed by the aforesaid members. The City retains no equity position in the joint venture. There were no audited financial statement available for the year ended December 31, 2022.

D. Post-Employment Benefits

Several employee groups have signed up for the Health Care Savings Plan through the Minnesota State Retirement System.

The City allows employees to stay on its group health insurance after retirement until they reach Medicare age. The retired employees are responsible for paying 100% of their premiums. The City had one retiree on its plan at the end of 2022. However, the City's carrier indicated the retirees had no impact on the rate for renewal. Therefore, the City does not have any post-employment liability recorded in the financials.

The City does not have any liabilities for health insurance premiums as of December 31, 2022.

Note 9: Tax Abatements

As of December 31, 2022, the City has six agreements entered into by the City listed below that abate City property taxes. Below is information specific to each agreement:

TIF District No. 11 was established in 2005 for the purpose of administration and site preparation costs on a twenty-four unit apartment complex. Under the agreement, up to \$539,600 of development costs will be reimbursed through tax increment over a 25 year period. During the year ended December 31, 2022, the City generated \$28,281 of tax increment revenue and made payments on the pay-as-you-go note of \$8,300. The note's balance at year end was \$238,774.

TIF District No., 12 was established in 2006 for the purpose of administration and site preparation costs on a twenty-one lot single family housing development. Under the agreement, up to \$1,100,000 of development costs will be reimbursed through tax increment over a 25 year period. During the year ended December 31, 2022, the City generated \$45,281 of tax increment revenue and made payments on the pay-as-you-go note of \$37,736. The note's balance at year end was \$68,084.

TIF District No. 14 was established in 2010 for the purpose of constructing a 30 townhome housing project. Under the agreement, up to \$600,496 of development costs will be reimbursed through tax increment over a 25 year period. During the year ended December 31, 2022, the City generated \$2,451 of tax increment revenue and made payments on the pay-as-you-go note of \$1,789. The note's balance at year end was \$453,924.

TIF District No. 15 was established in 2012 for the purpose of constructing a 76 unit hotel. Under the agreement, up to \$609,438 of development costs will be reimbursed through tax increment over an 8 year period. During the year ended December 31, 2022, the City generated \$94,858 of tax increment revenue and made payments on the pay-as-you-go note of \$65,301. The note's balance at year end was \$453,924.

TIF District No. 16 was established in 2016 to account for the activity related to the redevelopment of the former Northland Mall site and development of a mixed-use project in the City. Under the agreement, up to \$8,278,201 of development costs will be reimbursed through tax increment over a 26 year period. During the year ended December 31, 2022, the City generated \$204,045 of tax increment revenue and made payments on the pay-as-you-go note of \$35,184. The note's balance at year end was \$693,070.

City of Worthington, Minnesota
Notes to the Financial Statements
December 31, 2022

Note 9: Tax Abatements (Continued)

TIF District No. 17 was established in 2018 for the purpose of construction approximately 48 units of rental housing in the City of Worthington. Under the agreement, up to \$1,371,774 of development costs will be reimbursed through tax increment over a 25 year period. During the year ended December 31, 2022, the City generated \$3,006 of tax increment revenue and made payments on the pay-as-you-go note of \$0. The note's balance at year end was \$436,250.

TIF District No. 18 was established in 2020 for the purpose of redeveloping and renovating the former Thompson Hotel building for 39 units of rental housing and commercial space in the basement and on the first level. Under the agreement, up to \$2,582,662 of development costs will be reimbursed through tax increment over a 25 year period. During the year ended December 31, 2022, the City generated \$16,550 of tax increment revenue and made payments on the pay-as-you-go note of \$0. The note's balance at year end was \$479,223.

TIF District No. 19 was established in 2022 for the purpose of acquiring property to facilitate the redevelopment of the former Cemstone site and assist with development of a commercial/industrial development in the City and to acquire land, demolish buildings and clean-up of a former gas station. Under the agreement, up to \$2,681,164 of development costs will be reimbursed through tax increment over a 26 year period. During the year ended December 31, 2022, the City generated \$0 of tax increment revenue.

The City also entered in to a tax abatement agreement with Nobles County and Independent School District (ISD) #518, through a program initiated by the Nobles Home Initiative, under Minnesota State Statute 469.1813 Subdivision 8. The program is intended to encourage the construction on new owner occupied and rental residential housing units. Eligible projects are eligible to receive 100% tax abatement of the City's share of the increased real estate taxes resulting from the newly constructed housing unit, for a period of five years. During 2022, taxes abated for thirty-one eligible projects within the City corporate limits was \$32,899. The County and ISD #518 abated \$34,870 and \$16,841, respectively, for the eligible projects.

The City has several abatement agreements established under Minnesota State Statute 469.1812 as follows:

- A Tax Abatement agreement was awarded by the City Council on December 14, 2009. The abatement is for eligible expenditures related to the redevelopment of 607 Tenth Street and was awarded in compliance with the guidelines of the City's Tax Abatement Guidelines. The abatement is for \$13,500 or 10 years, whichever occurs first. As of December 31, 2022, the entity has been given/awarded \$13,109, of which \$2,057 was abated in 2022.
- A Tax Abatement agreement was awarded by the City Council on May 24, 2010. The abatement is for eligible expenditures related to the redevelopment of 511 10th Street and was awarded in compliance with the guidelines of the City's Tax Abatement Guidelines. The abatement is for \$80,000 or 15 years, whichever occurs first. As of December 31, 2022, the entity has been given/awarded \$14,841, of which \$3,298 was abated in 2022.

City of Worthington, Minnesota

Note 10: Prior Period Adjustment

Prior period adjustments were required to properly state beginning balances.

The following schedule reconciles the previously reported December 31, 2021 balances to the January 1, 2022 financial statement balances:

Fund	Net Position December 31, 2021 as Previously Reported	Prior Period Adjustment (1)	Prior Period Adjustment (2)	Prior Period Adjustment (3)	Prior Period Adjustment (4)	Prior Period Adjustment (5)	Prior Period Adjustment (6)	Net Position January 1, 2022 as Restated
Governmental Activities	\$ 87,911,883	\$ (675,411)	\$ -	\$ 184,781	\$ (10,830)	\$ 244,325	\$ -	\$ 87,654,748
Governmental Funds								
General Fund	\$ 9,700,735	\$ (675,411)	\$ (252,065)	\$ (9,623)	\$ -	\$ -	\$ (20,299)	\$ 8,743,337
Memorial Auditorium	181,423	-	-	-	-	-	(1,383)	180,040
Recreation	1,056,117	-	-	-	5,162	-	(7,755)	1,053,524
Economic Development Authority	(3,953,770)	-	-	-	-	-	(656)	(3,954,426)
Aquatic Center Facility	(2,687,337)	-	-	-	-	-	(374)	(2,687,711)
Debt Service Funds	2,416,365	-	-	194,404	-	-	(9,268)	2,601,501
Improvement Construction	4,800,500	-	-	-	13,912	-	(3,155)	4,811,257
Total Governmental Funds	\$ 11,514,033	\$ (675,411)	\$ (252,065)	\$ 184,781	\$ 19,074	\$ -	\$ (42,890)	\$ 10,747,522

(1) To record prior year unspent American Rescues Plan Act funds as deferred revenue.

(2) To move previously recorded land held for resale to a fixed asset.

(3) To adjust special assessments receivable.

(4) To correct outstanding retainage and miscellaneous fixed asset corrections.

(5) To properly state beginning balance of accrued interest related to debt.

(6) To properly state property taxes receivable as unavailable.

Note 11: Change in Accounting Principle

For fiscal year 2022, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessor is required to recognize a lease receivable and a deferred inflow of resources. These changes were incorporated in the City's 2022 financial statements and had no effect on the beginning net position.

City of Worthington, Minnesota
Required Supplementary Information (Continued)
For the Year Ended December 31, 2022

Notes to the Required Supplementary Information - General Employee Retirement Fund

Changes in Actuarial Assumptions

2022 - The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

2021 - The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes. The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2020 - The price inflation assumption was decreased from 2.50% to 2.25%. The payroll growth assumption was decreased from 3.25% to 3.00%. Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates. Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements. Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter. Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females. The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments. The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019. The assumed spouse age difference was changed from two years older for females to one year older. The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

2019 - The mortality projection scale was changed from MP-2017 to MP-2018.

2018 - The mortality projection scale was changed from MP-2015 to MP-2017. The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

2017 - The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability. The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

2016 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2035 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent. Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2035 and 2.5 percent per year thereafter.

City of Worthington, Minnesota
Required Supplementary Information (Continued)
For the Year Ended December 31, 2022

Notes to the Required Supplementary Information - General Employee Retirement Fund (Continued)

Changes in Plan Provisions

2022 - There was no changes in plan provisions since the previous valuation.

2021 - There was no changes in plan provisions since the previous valuation.

2020 - Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019 - The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 - The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Contribution stabilizer provisions were repealed. Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter. The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The state's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

2016 - There were no changes in plan provisions since the previous valuation.

2015 - On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

Required Supplementary Information (Continued)
For the Year Ended December 31, 2022

Notes to the Required Supplementary Information - Public Employees Police and Fire Fund

Changes in Actuarial Assumptions

2022 - The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021. The single discount rate changed from 6.50 percent to 5.40 percent.

2021 - The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes. The inflation assumption was changed from 2.50 percent to 2.25 percent. The payroll growth assumption was changed from 3.25 percent to 3.00 percent. The base mortality table for disabled annuitants was changed from the RP-2014 healthy annuitant mortality table (with future mortality improvement according to Scale MP-2019) to the Pub-2010 Public Safety disabled annuitant mortality table (with future mortality improvement according to Scale MP-2020). Assumed rates of salary increase were modified as recommended in the July 14, 2020 experience study. The overall impact is a decrease in gross salary increase rates. Assumed rates of retirement were changed as recommended in the July 14, 2020 experience study. The changes result in slightly more unreduced retirements and fewer assumed early retirements. Assumed rates of withdrawal were changed from select and ultimate rates to service-based rates. The changes result in more assumed terminations. Assumed rates of disability were increased for ages 25-44 and decreased for ages over 49. Overall, proposed rates result in more projected disabilities. Assumed percent married for active female members was changed from 60 percent to 70 percent. Minor changes to form of payment assumptions were applied.

2020 - The mortality projection scale was changed from MP-2018 to MP-2019.

2019 - The mortality projection scale was changed from MP-2017 to MP-2018.

2018 - The mortality projection scale was changed from MP-2016 to MP-2017. As set by statute, the assumed post-retirement benefit increase was changed from 1.0 percent per year through 2064 and 2.5 percent per year, thereafter, to 1.0 percent for all years, with no trigger.

2017 - Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. Assumed rates of retirement were changed, resulting in fewer retirements. The Combined Service Annuity (CSA) load was 30 percent for vested and non-vested deferred members. The CSA has been changed to 33 percent for vested members and 2 percent for non-vested members. The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. Assumed termination rates were decreased to 3.0 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. Assumed percentage of married female members was decreased from 65 percent to 60 percent. Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. The assumed percentage of female members electing joint and survivor annuities was increased. The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter. The single discount rate was changed from 5.6 percent to 7.5 percent.

2016 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2037 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 5.6 percent. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2037 and 2.5 percent per year thereafter.

Notes to the Required Supplementary Information - Public Employees Police and Fire Fund (Continued)

Changes in Plan Provisions

2022 - There were no changes in plan provisions since the previous valuation.

2021 - There were no changes in plan provisions since the previous valuation.

2020 - There were no changes in plan provisions since the previous valuation.

2019 - There were no changes in plan provisions since the previous valuation.

2018 - As set by statute, the assumed post-retirement benefit increase was changed from 1.0 percent per year through 2064 and 2.5 percent per year, thereafter, to 1.0 percent for all years, with no trigger. An end date of July 1, 2048 was added to the existing \$9.0 million state contribution. New annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter until the plan reaches 100 percent funding, or July 1, 2048, if earlier. Member contributions were changed from 10.80 percent to 11.30 percent of pay, effective January 1, 2019 and 11.80 percent of pay, effective January 1, 2020. Employer contributions were changed from 16.20 percent to 16.95 percent of pay, effective January 1, 2019 and 17.70 percent of pay, effective January 1, 2020. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. Assumed rates of retirement were changed, resulting in fewer retirements. The combined service annuity (CSA) load was 30.00 percent for vested and non-vested, deferred members. The CSA has been changed to 33.00 percent for vested members and 2.00 percent for non-vested members. The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. Assumed termination rates were decreased to 3.00 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. Assumed percentage of married female members was decreased from 65.00 percent to 60.00 percent. Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. The assumed percentage of female members electing joint and survivor annuities was increased. The assumed postretirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter. The single discount rate was changed from 5.60 percent per annum to 7.50 percent per annum.

2016 - There were no changes in plan provisions since the previous valuation.

2015 - The post-retirement benefit increase to be paid after attainment of the 90 percent funding threshold was changed, from inflation up to 2.5 percent, to a fixed rate of 2.5 percent.

NONMAJOR SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Memorial Auditorium – Established to account for the operation of the City's Memorial Auditorium.

Small Cities Grant – Established to account for revenues and expenditures for the rehabilitation of commercial property located in downtown Worthington and for residential property located northeast of the downtown area.

Sales Tax Revenue – Established to account for sales, use and excise tax revenues and transfers to capital project related to the sales tax referendum projects. These projects include the addition/remodeling of the Memorial Auditorium and the construction of an Event Center.

Event Center – Established to account for the operation and maintenance of the City's Event Center.

Wgtn EDA – Established to account for the operations and maintenance of the City's Economic Development and special programs administered by the community development project.

Private Development Assistance Spending Plan – Established to provide assistance to private development consisting of the development of a variety of housing to address the City's needs, including, but not limited to, market and workforce housing along with a combination of owner occupied and rental housing. As well as providing assistance to projects in they City's downtown which would rehabilitate the buildings of businesses and meet the City's goals of creating a vibrant downtown.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Municipal Buildings – This fund accounts for the improvement and maintenance of City buildings.

TI Dist #7 Redevelopment Amend 5 – This fund accounts for street, sewer, storm sewer and water main improvements and site preparation costs within Darling's Third Tac Increment District.

C&J Housing Project - This fund accounts for site preparation costs for a 25 unit assisted living senior citizen housing complex.

Okabena Estates - This fund accounts for administration and site preparation costs for a 24 unit apartment complex.

CCSI Redevelopment - This fund accounts for administration and site preparation for a 21 lot single family housing development.

Newcastle Townhomes - This fund accounts for the activity related to the construction of a 30 Townhome housing project.

Hotel TIF #15 – This fund accounts for the activity related to the Hotel Tax Increment Financing District.

Northland Mall TIF #16 - This fund accounts for the activity related to the redevelopment of the former Northland Mall site and development of a mixed-use project in the City.

Grand Terrace Apt TIF #17 - This fund accounts for the facilitation of the construction of approximately 48 units of rental housing in the City of Worthington.

Thompson Hotel TIF #18 - This fund accounts for the facilitation of the reconditioning and remodeling of the historic Thompson Hotel for rental housing in the City of Worthington.

Cemstone Redevelopment TIF #19 - This fund accounts for the redevelopment of the former Cemstone property.

INTERNAL SERVICE FUNDS

Internal Service funds are used to account for the financing of goods of services provided by one department or agency to other departments or agencies of the City and to other government units, on a cost reimbursement basis.

Data Processing - This fund is used to account for the data processing activities of the City which are charged to the various operating funds of the City.

Safety Promotion/Loss Control - This fund is used to account for and finance the City's uninsured risk of loss.

Vacation and Sick Accrual - This fund is used to account for funding compensated absences payable of governmental funds.

Health Insurance Plan - This fund is used to account for funding of health insurance to various City Departments.

The purpose of this report is to provide a summary of financial information concerning the City of Worthington to interested citizens. The complete financial statements may be examined at City Hall, 303 9th Street, Worthington, MN 56187. Questions about this report should be directed to Debra Olsen at (507)372-8600.

STATISTICAL SECTION (UNAUDITED)

CITY OF WORTHINGTON
WORTHINGTON, MINNESOTA

FOR THE YEAR ENDED
DECEMBER 31, 2022

THIS PAGE IS LEFT
BLANK INTENTIONALLY

STATISTICAL SECTION (UNAUDITED)

This part of the City of Worthington's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Source: Department of Assessor, Nobles County

Note: Property in Nobles County is reassessed every year on average. The county assesses property at approximately 100 percent of actual value for commercial, industrial and agricultural property and 93 percent for residential property. Estimated actual value is calculated by dividing assessed value by those percentages.

¹Includes tax-exempt property.

¹Overlapping rates are those of local and county governments that apply to property owners within the City of Worthington. Not all overlapping rates apply to all City of Worthington property owners (e.g., the rates for special districts apply only to the proportion of the City's property owners whose property is located within the geographic boundaries of the special district).

Total Overlapping Debt	<u>92,605,000</u>		<u>32,528,412</u>
Total Direct and Overlapping Debt	<u>\$ 111,894,276</u>		<u>\$ 51,817,688</u>

¹For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value. This approach was also used for other debt.

²Excludes debt payable from enterprise revenue.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Worthington. This process recognizes that, when considering the city's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Sources: Various city departments

¹The City of Worthington provided this service starting in 2005 with no additional charge, whereas in previous years this was arranged by the Worthington Chamber of Commerce for a nominal fee. Starting in 2011, the City charged a nominal fee.

²Starting in 2010 the code enforcement (community service officer) activity is accounted for under the public safety program.

³Starting in 2014 the Memorial Auditorium activity is accounted for under culture and recreation program.

⁴Starting in 2015, golf course information was not available. The course was decommissioned starting in 2016.

⁵Starting in 2017 the debris from sweeping is no longer tracked. The debris is dumped and disposed of by a private party.

Not Indicators are not available for the cable television function.

SINGLE AUDIT AND OTHER REQUIRED REPORTS

CITY OF WORTHINGTON
WORTHINGTON, MINNESOTA

FOR THE YEAR ENDED
DECEMBER 31, 2022

THIS PAGE IS LEFT
BLANK INTENTIONALLY

**INDEPENDENT AUDITOR'S REPORT ON
MINNESOTA LEGAL COMPLIANCE**

Honorable Mayor and City Council
City of Worthington, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Worthington, Minnesota (the City) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated September 20, 2023.

In connection with our audit, nothing came to our attention that caused us to believe that the City failed to comply with the provisions of the contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing sections of the *Minnesota Legal Compliance Audit Guide for Cities*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and City Council
City of Worthington, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Worthington, Minnesota (the City), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated September 20, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. As reported in the Schedule of Findings, Responses and Questioned Costs, we identified a deficiency in internal control that we consider to be a material weakness as finding 2022-001 and a significant deficiency as finding 2022-002 .

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's responses to the findings identified in our audit and described in the accompanying schedule of findings and responses. The City's responses was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED
BY THE UNIFORM GUIDANCE**

Honorable Mayor and City Council
City of Worthington, Minnesota

Opinion on Each Major Federal Program

We have audited the City of Worthington's, Worthington, Minnesota (the City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2022. The City's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

City of Worthington, Minnesota
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended December 31, 2022

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Worthington, Minnesota (the City) under programs of the federal government for the year ended December 31, 2022. The City's reporting entity is defined in Note 1A to the City's financial statements. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

2. Summary of Significant Accounting Policies for Expenditures

Expenditures reported on this schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-122, Cost Principles for Non-Profit-Organizations, or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. Pass-through Entity Identifying Numbers

Pass-through entity identifying numbers are presented where available.

4. Subrecipients

There were no expenditures in the current year provided to subrecipients.

5. Indirect Cost Rate

During the year ended December 31, 2022 the City did not elect to use the 10 percent de minimis indirect cost rate.

City of Worthington, Minnesota
 Schedule of Findings, Responses and Questioned Costs
 For the Year Ended December 31, 2022

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued	Unmodified
Internal control over financial reporting	
Material weaknesses identified?	Yes
Significant deficiencies identified not considered to be material weaknesses?	Yes
Noncompliance material to financial statements noted?	No

Federal Awards

Internal control over major programs	
Material weaknesses identified?	No
Significant deficiencies identified not considered to be material weaknesses?	None reported
Type of auditor's report issued on compliance for major programs	Unmodified
Any audit findings disclosed that are required to be reported in accordance with 2CFR section 200.516(a) of the Uniform Guidance.	No

Identification of Major Programs/Clusters

	<u>CFDA No.</u>
Capitalization Grants for Clean Water State Revolving Funds	66.458
Dollar threshold used to distinguish between Type A and Type B Programs	\$ 750,000
Auditee qualified as low-risk auditee?	No

Section II - Financial Statement Findings

One significant deficiency (finding 2022-002) and one material weakness (2022-001) relating to the audit of the financial statements is reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards.

Section III - Major Federal Award Findings and Questioned Costs

There are no significant deficiencies, material weaknesses or instances of noncompliance including questioned costs that are required to be reported in accordance with the Uniform Guidance.

Section IV - Schedule of Prior Year Audit Findings

There were prior year audit findings and they are included in the Schedule of Prior Audit Findings

Other Issues

A Corrective Action Plan is attached as required to be reported under the Federal Single Audit Act.

City of Worthington, Minnesota
Schedule of Findings, Responses and Questioned Costs (Continued)
For the Year Ended December 31, 2022

<u>Finding</u>	<u>Description</u>
2022-001	Material Audit Adjustments
<i>Condition:</i>	During our audit, prior period adjustments were needed to record accumulated depreciation on projects capitalized in current year but placed into service in prior years, adjust beginning accrued interest amounts, adjust special assessments receivables, and to move unspent grant revenues that were incorrectly recognized in the prior year to unearned revenue.
<i>Criteria:</i>	The financial statements are the responsibility of the City's management.
<i>Cause:</i>	City staff did not capitalize projects in years past as they were placed into service. Accrued interest was incorrectly calculated, and unspent grant revenues were recognized in the prior year, but should have been put into unearned revenue.
<i>Effect:</i>	It is likely that if a misstatement were to occur, it would not be detected by the City's system of internal control. The audit firm cannot serve as a compensating control over this deficiency.
<i>Recommendation:</i>	We recommend that management review each open project at year-end and determine if any are complete and need to be capitalized and that grants are reviewed closely to determine the most appropriate fund to record them in.

Management Response:

Management will review grants, debt and construction in progress accounts thoroughly in the future.

2022-002 **Unauthorized Interfund Transfers**

<i>Condition:</i>	During our audit, we noted not all interfund transfers were authorized by the Council.
<i>Criteria:</i>	Interfund transfers are to be authorized by Council by resolution.
<i>Cause:</i>	Interfund transfers were made that Council did not authorize by resolution.
<i>Effect:</i>	It is likely that if unauthorized transactions were to occur, it would not be detected by the City's system of internal control. The audit firm cannot serve as a compensating control over this deficiency.
<i>Recommendation:</i>	We recommend that management review authorization of interfund transfers before they are made.

Management Response:

Management will ensure interfund transfers are authorized by Council by resolution in the future.

FINANCE DEPARTMENT

CITY OF WORTHINGTON # 303 NINTH STREET, PO Box 279 # WORTHINGTON, MN 56187
TELEPHONE: (507) 372-8600 # FAX: (507) 372-8630 # www.ci.worthington.mn.us

2022-001 Material Audit Adjustments

Corrective Action Plan (CAP):

1. Explanation of Disagreements with Audit Finding:

There is no disagreement with the audit finding.

2. Actions Planned in Response to Finding:

The City will review each journal entry, obtain an understanding of why the entry was necessary and modify current procedures to ensure that future corrections are not needed.

3. Official Responsible for Ensuring CAP:

Debra Olsen, Finance Director, is the official responsible for ensuring corrective action of the deficiency.

4. Planned Completion Date for CAP:

December 31, 2023

5. Plan to Monitor Completion of CAP:

The Council will be monitoring this corrective action plan.

Sincerely,

Debra Olsen
Finance Director

Debra Olsen, Finance Director, is the official responsible for ensuring corrective action of the deficiency.

4. Planned Completion Date for CAP:

December 31, 2023

5. Plan to Monitor Completion of CAP:

The Council will be monitoring this corrective action plan.

Sincerely,

Debra Olsen
Finance Director

City of Worthington, Minnesota
Schedule of Prior Year Findings
For the Year Ended December 31, 2022

<u>Finding</u>	<u>Description</u>
2021-001	Untimely Preparation of Schedule of Expenditures of Federal Awards Resulted in Late Filing of the Single Audit Reporting Package to the Federal Audit Clearinghouse
<i>Condition:</i>	Because the City expended more than \$750,000 of federal awards, Office of Management and Budget's (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires a single audit of grant and loan activities to be performed. The City's current accounting process does not track federal funds. A manual process is used. The amount of federal expenditures was not known in time to submit the Single Audit reporting package to the Federal Audit Clearinghouse by the federally required deadline.
<i>Criteria:</i>	OMB's Uniform Guidance, Title 2, Part 200, Subpart F Audit Requirements, paragraph .512 requires the single audit to be completed and the data collection form and reporting package to be submitted within the earlier of 30 calendar days after receipt of the auditor's report, or nine months after the end of the audit period.
<i>Cause:</i>	City departments that receive federal awards did not communicate the federal expenditures to the finance director. Untimely discovery of federal program expenditure led to late preparation of the SEFA and submission of the Single Audit reporting package.
<i>Effect:</i>	Due to deficiencies in internal control over federal awards, untimely preparation of the SEFA caused delays in planning the single audit and subsequent testing of the SEFA and major programs. As a result, the City did not submit the Single Audit reporting package to the Federal Audit Clearinghouse by the federally required deadline. Non-compliance with the reporting requirements is a violation of federal grants terms and conditions and could affect future funding.
<i>Recommendation:</i>	We recommend policies in place and enforced requiring the departments that receive federal funding to keep track of federal expenditures and communicate with the finance director throughout the year to ensure accurate and timely preparation of the SEFA and submission to the Federal Audit Clearinghouse.
<i>Update:</i>	Finding was removed for the current year.
